

Wokingham Borough Connect

Have your say - street cleaning and litter bins

The consultation to have your say on the [future of street cleaning and litter bins](#) across the borough is now open.

We're currently grappling with the ongoing triple threat of high inflation, which leads to vastly increased costs, as well as growing needs among the community and a long history of inadequate funding from the Government.

With this in mind we are launching a consultation on how we could make much-needed savings.

This impacts areas such as street cleaning, grass cutting, litter bins and other services which will help us keep our finances stable and continue looking after those who rely on us most.
